The Sheeter can mould multiple types of rolls in various sizes. (from 15g to 2.5kg) and can be used to cylinder the dough. The machines are supplied with a chute which retunes the pieces to the operator or delivered them to the tray at the rear. The cylinder of this model is straightened and chrome plated and has a usable width of 600mm.

Them machine is made of very strong steel sheet, and all moving parts are mounted on waterproof bearings. The cylinder protection is made of stainless steel and when it is lifted a dive cuts in and stops the machine. The electric commands, just like the safety devices, are 24 Volt.

The machine is also fitted with a device that can be quickly adjusted to roll the dough softly

	TECHNICAL SPECIFICATIONS
CYLINDER SIZE	2 X 600mm
DIMENSIONS (mm)	830W X 840D X 1145H
POWER RATING	0.65kW
SUPPLY VOLTAGE	220V- 50/60HZ Single Phase
WEIGHT	140kg
ITEM CODE	TCRM
